Soft Skills

- Discipline & Punctuality
- Loyalty & Commitment towards work
- Good Communication Skills
- Problem-Solving Ability
- Teamwork & Adaptability

PERSONAL PROJECTS

1. Student Management System

- Developed a full-stack web application using **React.js, Node.js,** and **MongoDB** to efficiently manage student records with seamless frontend-backend integration
- Implemented complete **CRUD** functionality allowing users to **add, update, delete**, and **view** student data dynamically in real time
- Designed a clean and user-friendly interface to enhance usability and simplify **data management** for end users

---

2. Admin Dashboard Panel

- Built a secure and scalable admin dashboard application with authentication using **Passport.js and session-based** login system
- Implemented **login, logout,** and session management features to ensure secure user access and data protection
- Designed a fully responsive and modern UI for better user experience across devices
- Developed protected routes and role-based access control to restrict unauthorized access

---

3. E-commerce Website

- Developed a dynamic e-commerce web application with product **listing, filtering,** and **shopping** cart functionality for a seamless online shopping experience
- Integrated REST APIs to fetch and display real-time product data and manage user interactions efficiently
- Implemented responsive design to ensure compatibility across mobile, tablet, and desktop devices
- Managed application state and user actions effectively to enhance performance and usability

---

4. Blog Website (MERN Stack)

- Developed a full-stack blog application using **React.js, Node.js, Express.js,** and **MongoDB** enabling users to create, edit, delete, and view blog posts
- Designed a structured and responsive UI for better readability and user engagement
- Built RESTful APIs for handling blog operations and ensured smooth communication between frontend and backend
